

CONTACT TIMES FOR INSPECTIONS

It shall be the responsibility of the permit holder (owner or contractor) to contact the inspector when the work has progressed to the point of needing an inspection. Inspectors must respond in a timely order. You must obtain proper sign-offs by inspectors before proceeding.

- ❑ **Excavation/Footings:** inspector to observe soil types: groundwater elevation, temporary shoring, site safety and inspection of footings prior to pouring
- ❑ **Foundation:** inspector to observe location, size & shape, width, reinforcing, height of unbalanced fill, fireplace jog, ventilation, damp-proofing/waterproofing, foundation drainage and either first floor framing in place or proper bracing before backfill
- ❑ **Prior to pouring slab:** Inspector to observe reinforcement and vapor barrier
- ❑ **Sub-trade Inspections:** call appropriate inspector for individual inspections including, but not limited to: Plumbing, Gas, Electrical, Oil Burner
- ❑ **Frame:** call after all framing is in place and sub-trades have finished all cutting, drilling and notching. Inspector to observe species & grade, spans, connections, cutting & notching; and fire-stopping (**after** inspection and sign off from sub-trade inspectors)
- ❑ **Fireplace/chimney:** call following completion of firebox, throat and first flue set
- ❑ **Insulation:** after insulation is in place: inspector to observe insulation type, vapor barrier, and R-values
- ❑ **Mechanical:** inspection of duct installation (for type and fastening), furnace plenum, hydronic piping, wood & pellet stove, dryer vents, bath exhaust fans, heat pumps, etc.
- ❑ **Finish:** call after sub-trade inspectors have signed for final approvals and building, or parts there of, are ready for occupancy and/or use
