STOLEN LAWN ORNAMENTS RECOVERED

Lee, MA: Late Saturday evening, lawn ornaments and solar lights were stolen from the front yards of over a dozen homes in Lee. A witness described the possible suspects as being a group of teenagers, and said an unidentified vehicle was seen in the street at the time of the thefts. Most of the victims did not realize anything was missing until the following morning. On Monday morning, some of the stolen items were recovered behind St. Mary's School on Orchard Street and behind the old NAPA auto parts store on Route 102.

Some of the solar lights and lawn ornaments have been returned to the property owners. However, a few law ornaments and numerous solar lights remain unclaimed because they have not yet been identified by the owners. If you are missing lawn ornaments or solar lighting and would like to view these items for identification, please stop by the Lee Police Department at any time. Anyone with information regarding any of these thefts on Saturday night or early Sunday morning should contact the Lee Police Department at 413-243-5530.
