

Planning Board

Proposed Amendment Section 199-71
September 2, 2011

C. Waste material containers, (dumpsters and similar devices), may be kept on site as long as they are in use. When full, they must be emptied in a timely manner. Waste material containers must be removed from the work site if not longer in use, i.e. not in the process of being refilled with material from the work site. Storage of waste material containers is restricted to the operations base of the owner(s).
