

**Table 17. Annual phosphorus loads (kg/yr) for Laurel Lake listed by source
as derived from in-field measurements, regional data, and hydrologic modeling**

Source	<u>Phosphorus Loads</u>	
	(kg/yr)	(%)
Direct Precipitation	15.2	11.9%
Ground Water Inseepage	5.8	4.6%
Surface Water		
Dry Weather	6.6	5.2%
Wet Weather*	93.8	73.4%
Internal Release (from lake sediments)	6.3	4.9%
Total Annual	127.7	100.0%

* Only includes data from tributaries, not storm drains
